Conchas Brasileiras – Lista de Recordes II Brazilian Shells – Record List II

Antonio Celso Guimarães Prado
&
Oscar Simões de Abreu

OBJETIVO/OBJECT

Este trabalho tem como objetivo apresentar os tamanhos recordes das conchas brasileiras devidamente atualizadas.
This paper presents the records sizes of brazilian shells duly actualized.

CRITERIOS/CRITERIONS

Abaixo relacionamos os critérios para a elaboração da presente lista

- 1) Somente exemplares coletados em território brasileiro.
- 2) A escala de medida utilizada foi o milímetro, com uma casa decimal (0,0).
- 3) Foram considerados os exemplares com dimensão igual ou maior de 1 (um) centímetro.

We use the following rules to make this list

- 1) Only shells collected in brazilian territory;
- 2) The measurement unity is the centimeter with one decimal approachly,
- 3) The minimum size considered is 1 (one) centimeter.
